I. Proposed by Alliance in the Alps: Living vision in a modern Triesenberg

Based on a communal project developed jointly with the local population.

A spatial development concept is now being drawn up. This in turn forms the basis for the revision of the site planning. The project "Gwirbi Coworking Triesenberg" will also be presented, which enables young entrepreneurs to work in one place and to exchange ideas and network creatively.

Meeting point: JUFA Hotel Malbun 08.30 a.m. | Triesenberg municipal administration, Landstrasse 4, 9497 Triesenberg 09.00 a.m.

Start: 09:00 | End: 11:30

By: Christoph Beck | DE, FR, IT, SI

II. Proposed by Alliance in the Alps: In the footsteps of the Liechtenstein bees

What does a bee colony look like from the inside? How are young beekeepers, pupils and students involved in the projects of the Liechtenstein Beekeepers' Association? How does the cooperation with the agricultural centre Salez/CH look like? These and other questions will be vividly explained and discussed during a guided tour through the Teaching Bee Trail and Teaching Bee Stand of the Liechtenstein Beekeepers' Association in Vaduz.

Meeting point: JUFA Hotel Malbun 08.30 hrs | Schaan-Vaduz railway station 09.00 hrs

Start: 09.30 | Arrival at Schaan-Vaduz railway station: 12.00

By: Marco Jehle-Radkohl | DE, FR, IT, SI

III. Living Labs Workshop KARTABAR: A Collective Confrontation with the landscapes and spatial culture in Liechtenstein.

In this excursion we will walk through Schaan, and get an insight into an exemplary project developed by young people who have dealt artistically and participatively with sustainability in the Alpine region, architecture and landscape planning. During a guided tour through Schaan to the Gamanderstall, the concerns and working methods of the project initiators as well as the association's goal of making spatial issues a cultural matter will be presented.

Meeting point: Schaan-Vaduz railway station 09.00 a.m.
